EX: 300x440; 315x462; 330x484; 600x880

Movie Images

Cover Image Requirements
Width must be at least 350px
Height must be at least 200px
Width:Height ratio must be *7:4*
EX: 350x200; 357x204; 364x208; 700x400

Poster Image Requirements
Width must be at least 300px
Height must be at least 440px
Width:Height ratio must be *15:22*
EX: 300x440; 315x462; 330x484; 600x880

Episode Images

Primary Image Requirements
Width must be at least 650px
Height must be at least 350px
Width:Height ratio must be 13:7
EX: 650x350; 663x357; 780x420

Scene Images

    Width must be at least 1024px
    Width:Height ratio must be 64:33
    EX: 1024x528; 1088x561

Character Images

    <u>Cover Image Requirements*</u>
    Width must be at least 1000px
    Height must be at least 375px
    For Character Cover Images, we recommend that you stick to the exact dimensions 1000x375.

    <u>Thumbnail Image Requirements</u>
    Width must be at least 500px
    Height must be at least 500px
    Width:Height ratio must be 1:1
    EX: 500x500.

    <u>Scene Images Requirements</u>
    Width must be at least 1024px
    Width:Height ratio must be 64:33
    EX: 1024x528; 1280x600

Outfit Images

    Width must be at least 400px
    Height must be at least 400px
    Width:Height ratio must be at most 1:1*
    In other words, the image must be taller than it is wide

    This workflow is slightly different than the other images, If the image is originally wider than it is tall, just crop it to a square (e.g., 600x500 => 500x500) otherwise, just crop as needed to make the image look good
